 South Central District Health Dept., EHS

The lots on this plat are subject to restrictions concerning the locations of wells and septic systems. These restrictions are on file at the South Central District Health Department and no building permits will be issued without the consent of the Health Department and strict conformance to these restrictions.

Lots 1-4, Block 1 will be required to import soil, approved by South Central District Health Department, in areas of septic system installations. Pressurized mound systems shall be utilized on the aforementioned lots. Different engineered septic systems may be allowed if system design has been reviewed and approved by the South Central District Health Department prior to construction.
